Subject **NAC scientific report**

To: Michiel Rodenhuis,
Executive director NOVA

The 2025 Netherlands Astronomers' Conference (NAC) marked the 80th installment of the annual conference for the whole Dutch and Flemish astronomy community. The Conference took place in Berg en Dal from May 26 to May 28 and was organized by Radboud University.

The highlights of the 80th NAC were the announcement of Marijke Haverkorn as the new KNA/RNAS chair, the latest results from WEAVE presented by Scott Trager, six invited new staff talks, the evening lecture from Heleen de Coninck on the Intergovernmental Panel on Climate Change and two special sessions on Instrumentation and Data Science (the first of their kind at a NAC).

Sincerely,

Michael Janssen
